

Monkey Tree Park WiFi

Ticket Code For Second Device

Once the payment is complete for access to the WiFi the device that has paid will now have access to the internet. The system should then email the address that was used to pay with a code to the second device.

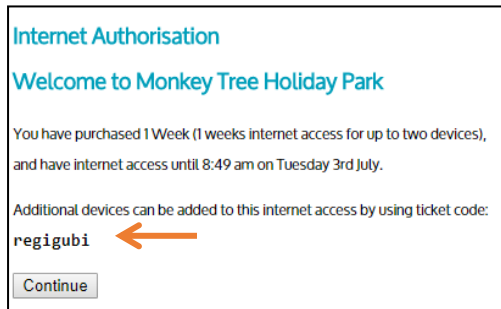

This code appears to get lost sometimes (possibly due to spam filters).

Obtaining code manually via first device

To obtain the code for adding the second device, first visit:

<http://strata.orbiss.co.uk> on the original paying device.

This should bring up the payment portal again, but now instead of options to pay, it should show something like this:

Internet Authorisation

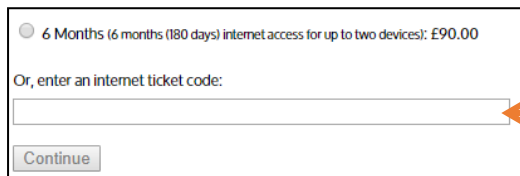

Welcome to Monkey Tree Holiday Park

You have purchased 1 Week (1 weeks internet access for up to two devices), and have internet access until 8:49 am on Tuesday 3rd July.

Additional devices can be added to this internet access by using ticket code:

regigubi ←

On the second device enter this code in the box shown below (under the price options)

☒ 6 Months (6 months (180 days) internet access for up to two devices): £90.00

Or, enter an internet ticket code:

←

Press continue, you will be asked for an email address and to agree to the terms. After this the second device should be authorised on to the internet.

For any further issues please email wifiadmin@monkeytreeholidaypark.co.uk
